e-flare™
safety in a flash

Introducing E-Flare

E-flare Beacons are visible for more than one kilometre at night.

MANY USES:

- Warehousing
- Traffic Control & Guidance
- Emergency Situations
- Breakdowns and Repairs
- Marine
- Vehicles
- Farming

E-flares provide for a quick and easy method to enhance safety by creating a highly visible warning or safety zone, in other words "safety in a flash" and "be seen, be safe".

One or Two Colour light combinations – steady on or flashing – very tough. Various accessories available. Magnetic mounts, standard mounts, lanyards & clips.

Note for some versions a leadtime may apply.

BRADY

Ladder Tag Kits

KIT INCLUDES:

- 10 Ladder tag holders
- 10 Ladder tag inserts
- 1 Permanent marker pen

Brady standard ladder tag kits are an excellent solution providing everything you need in a pack. You start with the robust ladder tag holder complete with the visible prohibition icon. Included are the ladder tag inserts which are used to record the ladder inspection details plus a quick and handy check inspection list. This kit is the perfect solution to control your inspection requirements and any other control procedures.
